*Welcome* to our 30th Annual "Born to Perform" Angus Bull and Female Sale! We would first like to thank all of our customers for their past and future support. We value the faith you have put in our program. So, once again, Thank You!

Please note the Bulls were photographed the end of March and the videos were taken the second week of April, so we encourage everyone to come view the bulls before the sale if you can't make the sale. They will continue to grow and mature over the course of the next month.

What can we say about these animals! Like all of you, we went to bed at night wondering if we had done enough to give these animals a chance to see another day. We feel these animals did all we could ask of them, even though we knew there were a lot of consecutive days these animals couldn't consume enough to maintain themselves.

The Bulls and Heifers stayed in their pasture groups from weaning at which time they were fed a 30 megacal ration until the beginning of December. At that time we were able to remove snow from the pens and moved the bulls to a 44 megacal ration which they will stay on until sale day. The heifers were moved to a 36 megacal ration that they will stay on until sale day.

When you see this years' bull offering, we feel they will fill the needs of any serious cattleman who demands good quality genetics. We will offer not only hard to find bloodlines such as Coleman Triumph, LT Converse and Willow Creek Rainmaker 954, but we will be offering an exclusive opportunity to purchase two full brothers to Musgrave 316 Stunner; Lots 12 & 13. We are also offering many sons of the breeds' most reliable sires.

This year we will offer 90 commercial purebred heifers and 7 outstanding registered yearling heifers sired by many of the same sires as the bull offering such as Sitz Resilient, Sitz Stellar, Lt Converse, Coleman Triumph, Tehama Tahoe, and Musgrave 316 Stunner. They are all home raised and are bangs vaccinated and have had Vista VL5. They have been ultra-sounded open and breedable. The commercial heifers will be sorted and penned into 3 groups and will be sold in numerical order of 5 with the high bidder having the option to purchase more than 5 or the whole pen.

If we can be of any assistance or if you have any questions, don't hesitate to contact us.

We look forward to seeing you all Sale Day.

*-The Terry Duppong Family*

## PERFORMANCE DATA

**CALVING EASE DIRECT (CED)**, is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

**BIRTH WEIGHT (BW)**, expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

**WEANING WEIGHT (WW)**, expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

**YEARLING WEIGHT (YW)**, expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

**MATERNAL MILK (MILK)**, is a predictor of a sire's genetic merit for milk and mothering ability in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

**CLAW SET (CLAW)**, expressed in units of claw-set score, a lower EPD is more favorable, indicating a sire will produce progeny with more symmetrical, even and appropriately spaced toes compared to another sire.

**FOOT ANGLE (ANGLE)**, expressed in units of foot-angle score, a lower EPD is more favorable, indicating a sire will produce progeny with an angle closer to 45 degrees at the pastern and appropriate toe length and heel depth compared to another sire.

**DOCILITY (DOC)**, expressed as a difference in yearling cattle temperament, with a higher value indicating more favorable docility in a sire's offspring compared to another sire.
